EXCLUSIONARY STATEMENT

I understand that the \$14.95 special applies to the initial visit only and includes a thorough consultation, orthopedic/neurologic examination and any appropriate x-rays. If any treatment needs to be rendered on the first visit, there will be an additional fee. Normally, treatment is not rendered on the initial visit due to the amount of time that needs to be taken in order to thoroughly evaluate the case.

I also understand the \$14.95 special does not apply to any file involving personal injury litigation or in reference to a Workman's Compensation claim.
